

Small space, big relaxation: ModularSpa by wedi is a shower and steam bath in one

Photos to download

An individually designed feel-good place in your own bathroom? This is possible with the ready-to-install ModularSpa solutions from wedi. They are the basis for modular steam showers – and fits even the smallest of spaces.

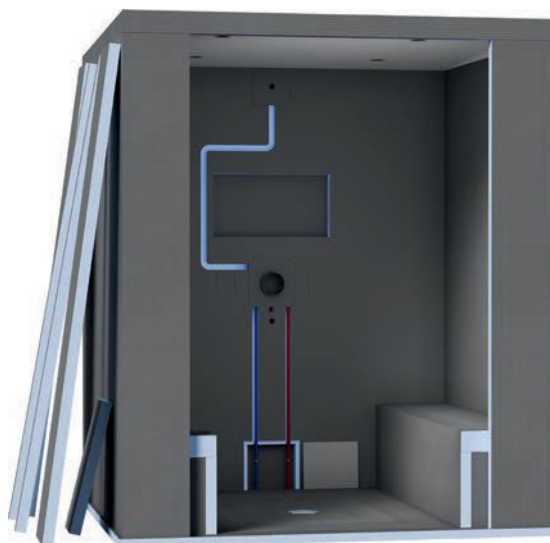

A modern bathroom today is more than just a room with certain functions. It has become a habitat – and the demands continue to rise. Health, recreation and comfort are the focus of attention. The bathroom is becoming more and more a place of well-being To be able to relax and recharge your batteries.

ModularSpa is available in three basic types. The width can be selectable between 1200 mm for Small Baths and 2300 mm for Large Rooms – continuously variable. In addition to the appropriate size, various benches and roof surfaces in RAL colours can be included. Light elements can be selected.

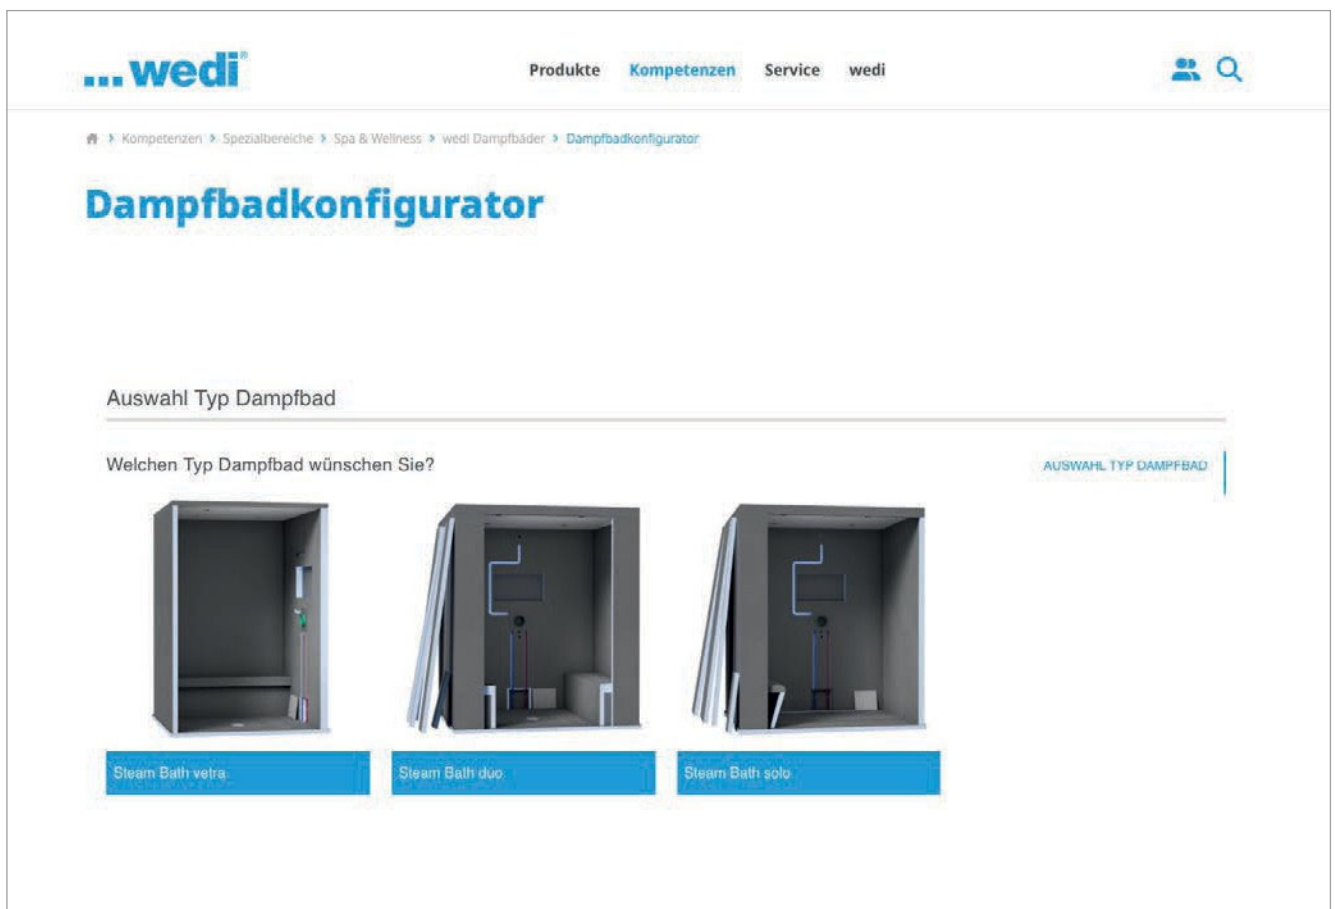

ModularSpa can be installed quickly and easily in renovation and new construction projects: Wedi delivers the steam bath modules complete with flush-mounted fittings, hot and cold water pipes. This 'plug-and-play' principle simplifies the installation of complex systems.
