suitable design for
every requirement ...**

wedi Top Line

Perfect interplay of function, design and safety

... wedi®

What if your concerns have already been taken into account ...

Designing dream bathrooms is straightforward and secure with the wedi Top Line

If you wish to secure projects that call for the implementation of modern, seamless bathrooms, you do not only need to keep an eye on the scarce number of staff or tight deadlines, but also need durable and easy-to-process solutions.

Used as a part of the wedi system, the wedi Top Line creates real advantages in everyday work.

- **Save time.** Everything is thought of, everything fits together and can be installed quickly. wedi Top design surfaces are precisely matched to corresponding wedi system components such as wedi building boards, Fundo shower elements and other functional design elements. Some products within the assortment are available with a high degree of prefabrication, for example our design surfaces for niches with integrated light (page 16). Our new design surfaces in a marble look are only 4 mm thick, making them much easier and safer to process than large-format tiles.
- **Increase security.** Thanks to the high quality of our products, nothing stands in the way of direct processing. With wedi you are always on the safe side – declaring the quality of our products and the security of our systems, we offer a 10-year product quality guarantee on all price list items.
- **Create designer bathrooms.** The wedi Top Line complements smart wedi system solutions with its design aspect offering a unique option for creating seamless bathrooms – now in even more colours and textures (page 9). Take advantage of our full system solution and offer your customers individually designed bathrooms and showers that are not only 100% waterproof, but also boast style and class.

Tailored to our overall system

VOC classification

The wedi Top Line poses no risk to health and is low-emission

Go to the construction site with a system

Whether it be a new construction, renovation or modernization, a bathroom or wet room, a simple or demanding substrate, our seamless floor and wall surfaces are suitable for any requirement.

- **Have tight deadlines?** wedi Top design surfaces are matched to our floor-level shower elements and design elements such as a niche or a bench. They fit other wedi system components perfectly and are quick and easy to install.
- **Need flexible solutions?** Our ready-to-install design surfaces can be conveniently shortened to the appropriate size without the need for special tools.
- **A glue for everything?** Superior adhesion and seal with the wedi 610 adhesive sealant - for the installation of the Top Line and for all shower elements, wall surfaces as well as functional and design elements it guarantees 100% watertightness in the overall system.

The benefits at a glance

Installation made easy

Adhesion to the corresponding wedi Fundo shower element with matching factory-integrated slopes, to the various functional and design elements or to wall surfaces is simple and 100% waterproof with wedi 610 adhesive and sealant – without the need for drilling and screwing. The short drying time guarantees particularly low downtime, which means that the bathroom can be completed and back in use quickly.

Natural stone look

Inspired by nature – from the colour scheme to the structured surface. The 6 mm thick material is completely dyed through therefore cut edges become invisible.

Monochrome look

The 6 mm thick surface is elegant and simple with a timeless appearance and silky look. The colours underline the monochrome impression.

Marble look

For demanding tastes – with a fine matt structure, 4 mm thickness and trendy look. They are replicas of the real thing right down to the last detail, including 70% recycled marble.

A modern bathroom featuring a large shower area with a wall of marble-look tiles. The shower has a glass door and a built-in shelf with various toiletries. To the right, there is a wooden stool with a vase of flowers and a towel rack with towels. The floor is made of light-colored tiles.

What if all eyes are on the shower ...

The wedi Top Line combines natural look and timeless design creating a stylish atmosphere in any bathroom. Thanks to its versatility, it is suitable for a wide range of applications for both modern and traditional interiors. Whether as a single accent wall in the shower or a surface design for the entire room, the high-quality textures and patterns of these surfaces give life and character to any space. A bathroom that boasts style - the design surfaces of the wedi Top Line transform bathrooms into a reflection of the owner's personality, not only allowing for individual ideas, but creating a unique, personal space of wellness.

For the wall: wedi Top Wall

The ideal alternative to tiles installed before the end of the day.

Do your customers want a dream bathroom with minimised grout-lines? Choose a seamless alternative to traditional tiles. The wedi Top Wall is the perfect solution for the quick creation of modern wet areas. wedi Top design surfaces are much easier to process than large-format tiles. In addition, there is a high level of security for you as well as your customers: the walls are 100% waterproof in the overall wedi system and are particularly durable. Optimal repair articles have been developed to repair any possible damages. If you have any questions about this, please do not hesitate to contact the wedi team.

wedi Shower Configurator

Configure. Order.

Install. Finish!

How it works

The wedi Top Wall design surface can be easily cut to the desired format.

Apply wedi 610 adhesive sealant to the sealed substrate.

Attach the wedi Top Wall to the surface.

Complete wedi Top Wall installation instructions at www.wedi.net/downloads

For the shower: Fundo Top®

**Non-slip design surfaces with
integrated slopes for the shower floor.**

Don't want to slip? The Fundo Top is non-slip and the perfect complement for floor-level wedi Fundo shower elements with point or linear drainage. The seamless design surface does not only ensure a modern look in the bathroom but is also quick to install and easy to clean. **Thanks to different colours and designs, there is plenty of room for the implementation of individual wishes.**

Just perfect

- Suitable for wedi Fundo shower elements
- Different designs and colours are available
- Safety in wet conditions due to the non-slip surface

Non-slip in wet areas

Slope		Non-slip rating	German standard DIN 51097	Surface design	Suitability
6° ≤ 12°		Standard	-	All Fundo Top surfaces	Private area
12° ≤ 18°		Medium	A	Fundo Top Monochrome look: pure white Fundo Top Marble look: marble white, grey-beige, grey-brown, marble black	Private area
18° ≤ 24°		High	B	Fundo Top Natural stone look: stone grey, concrete grey, carbon black	Private and public/ commercial areas

Drain covers for every taste

Discover the variety of our drainage systems, which offer the right solution for every taste and requirement. Whether it be a classic drain cover, a coloured version or a frameless cover in a matching design, wedi drain systems have proven themselves many times over – and yet they always impress.

New covers with **modern metallic design** take this a step further - the special feature is the high-quality PVD coating - the brushed surface structure and the high colour brilliance is a real eye-catcher. They are perfect to combine with Fundo Top surfaces in natural stone and monochrome looks.

Fundo Tops in a marble look come with a **frameless drain cover** in a perfectly matching design creating a harmonious and uniform look throughout the shower area.

How it works

Apply beads of wedi 610 adhesive sealant to the Fundo element according to the specified adhesive grid.

Glue the chosen Fundo Top to the surface.

Combine with the desired drain cover.

Complete installation instructions for Fundo Top at www.wedi.net/downloads

For the niche: wedi Sanwell Top

Storage surfaces that fit into the room design perfectly.

Storage surfaces as a design object? The wedi Sanwell Top turns a simple niche into a highlight. You can score with your customers with such thoughtful details as this. Another plus is that literally, you can bring light into the dark. The wedi Sanwell Top niche is also available with an integrated light bar, creating a pleasant and warm atmosphere in the bathroom without the need for any preliminary work.

How it works

Apply wedi 610 adhesive sealant according to the specified adhesive grid.

Connect the power cable and insert the Sanwell Top LED niche into the Sanwell niche.

Ready to use after only 2 hours of drying time.

Complete wedi Sanwell Top assembly instructions at www.wedi.net/downloads

For the seat: wedi Sanoasa Top

Ergonomically designed shower bench.

Warm to touch and grout free, and hence comfortable and hygienic!

Who wants more from a shower bench? The wedi Sanoasa bench 3 with the matching Top design surface becomes a real design object. It is particularly comfortable thanks to the ergonomically shaped seat. Stylish colours ensure that the bench either subtly fits into the bathroom design – or presents itself as a highlight.

Just perfect

- Bench with a seamless design surface – 100% waterproof
- Easy to apply and adapt to any desired bathroom design

How it works

Cut the wedi Sanoasa Top to the desired width.

Apply wedi 610 adhesive sealant according to the specified adhesive grid.

Glue wedi Sanoasa Top to the surface.

Complete assembly instructions for wedi Sanoasa Top at www.wedi.net/downloads

For the toilet: wedi I-Board Top

Hygienic and elegant toilet cistern cladding

No chance for bacteria! Seamless toilet cistern claddings ensure hygiene. Due to its antibacterial surface and the absence of grout lines, the wedi I-Board Top is simply the perfect solution that can be kept optimally clean all times with little effort. Like all wedi Top Line surfaces, the wedi I-Board Top can also be installed quickly and easily.

How it works

Cut wedi I-Board Top to the desired size and cut out the flush plate if necessary.

Apply wedi 610 adhesive sealant according to the specified adhesive grid.

Glue wedi I-Board Top to the surface.

Complete wedi I-Board Top assembly instructions at www.wedi.net/downloads

Function meets sustainability

Do your customers ask specifically for sustainable products beside wanting safe solutions?

Then, please recommend the wedi Top Line with a clear conscience.

The new marble look, for example, consists of **70% recycled marble**, the flakes of the monochrome look and the natural stone looks are made **entirely of recycled materials**. Other wedi products, such as the famous building board for example, are also certified as particularly environmentally friendly.

Our service for your project

The wedi quality guarantee

With the extended guarantee services on products and systems, wedi sets new standards in quality leadership. Because we not only offer the legally required warranty, but also a voluntary and additional service commitment in the form of a comprehensive wedi manufacturer warranty.

wedi system training

With wedi system solutions, there are no limits to individual design wishes for wet areas. The variety of shower systems, the proven wedi building board, niches, benches and much more form the heart of valuable constructions in wet areas. In varied units, our training team teaches you everything you need to know about the correct applications and design options of our products in theory as well as in practice.

10-year guarantee on wedi's entire price list range

Technical information

The wedi world of systems contains a multitude of individual elements which can be variably used and modularly expanded. You can find various technical documents which give you an overview of the respective formats, dimensions and technical requirements, as well as internationally usable installation instructions and videos at **www.wedi.net/downloads**. So that you can plan efficiently, and you are always on the safe side.

Wide range to suit every bathroom situation

Thanks to the wide range of wedi products, you can offer your client the ideal products and system solutions whatever their individual bathroom situation is. Design and functional elements create additional benefits, so that en-suites or guest bathrooms as well as generous family or accessible multigenerational bathrooms can be realized. With wedi as the main contact before, during and after the construction phase, handling is simplified for you and offers more security for your client. This allows for your project to be implemented quickly as well as ensures a reliable contact should any problems arise or spare parts be needed years after completion. A win-win situation for all project participants.
