Berlin, Germany

Year

2017

Project type  
Old building  
renovation

Bathroom renovation.

Brief description

## Old building renovation on an old apartment building

All shower areas were equipped with wedi Fundo Riolito neo 1200 x 900 mm and the standard cover. In the process, the wall in the back area was clad with a 12.5 mm BA XXL so that the channel looks like it is right against the wall.

The entire wall area in the shower was clad with 12.5 mm BA XXL, the joints were formed with wedi 610 and self-adhesive reinforcement fabric. The wall area is therefore permanently sealed.

The 50 mm XL and XXL building boards were used for the shower partition.

Products used

## Base products

- wedi BA XL/XXL 12.5 mm and 50 mm
- wedi Fundo Riolito neo 120 x 90 with standard cover
- wedi 360
