

## Perfect interaction: wedi Top design surfaces and wedi XPS elements

**Emsdetten, September 12, 2023. The perfect combination of technology and design: bathroom and wet room specialist wedi presents an innovative solution for the design of showers and bathrooms. The combination of highly functional wedi Top design surfaces and proven wedi XPS elements opens up endless possibilities in terms of aesthetics and functionality. Whether for the renovation of a simple shower enclosure or for the construction of a complete bathroom, this coordinated system delivers a seamless result.**

Modern surfaces without joints in bathrooms and showers: this can be easily achieved with the precisely matching design surfaces of the wedi Top Line. These large format design elements produce an attractive overall result in the shortest possible time. Another advantage: their anti-bacterial surface actively protects against mould and bacteria.

By combining them with wedi shower and functional design elements, the result is a perfectly structured and coordinated system. The combination of a wedi XPS element and the corresponding Top surface ensures 100% watertightness – for long-lasting quality and peace of mind.

### **Technically advanced**

Technology and systemised approach make the installation process much easier. "Both the design surfaces and the matching XPS elements already include the necessary recesses, drillholes and slopes," says Volkmar Harnischmacher, Head of Sales Channel Management & Marketing at wedi. Installation is also very simple: Top design surfaces are simply bonded with wedi 610 adhesive and sealant – without the need for elaborate drilling and screwing. The short drying time minimizes downtime so that the bathroom can be quickly used again. "If a special installation situation requires it, design surfaces as well as XPS elements can be easily adapted individually," adds Volkmar Harnischmacher. "For this purpose, conventional tools such as a hand-held circular saw are sufficient."

## **Perfectly fitting**

Whichever style clients choose – the modular wedi system offers extensive possibilities for seamless, waterproof design in modern colours and textures. The design surfaces of the Top Line are available for wedi Fundo shower elements and functional design elements such as the wedi Sanoasa bench 3, the wedi Sanwell niche and the wedi I-board as well as wedi building boards.

## **About wedi**

The wedi Group is a leading manufacturer of innovative system solutions for bathrooms and wet rooms. The company, founded in 1983 in Emsdetten, Westphalia, is known for its building boards with blue XPS core developed by the company founder Helmut Wedi. Today, the system provider employs more than 500 people and is active in over 50 countries. At its two manufacturing plants in Germany and the USA, wedi produces complete building systems and design-oriented components for durable and aesthetic bathrooms. The strategic focus is on a high degree of prefabrication and integrated technology to ensure a safe and easy installation. wedi is certified according to the environmental standard ISO 14001 and pursues a comprehensive sustainability strategy.
