

## wedi Top Line: even more freedom of design for bathrooms

[www.wedi.net/wedi/pressemitteilungen/marmoroptik](http://www.wedi.net/wedi/pressemitteilungen/marmoroptik)

Timeless elegance and sustainability: the bathroom and wet room specialist wedi launched brand new colour options for its seamless Top Line. Ready-to-install wedi Top design surfaces are now also available in a modern marble look. Thanks to the beautiful marble pattern, they create an elegant atmosphere in the bathroom. What's more, they also comply with sustainable building due to their natural material composition.

There are 4 new finishes available for designing personal wellness oases: "marble white", "marble grey-beige", "marble grey-brown" and "marble black"

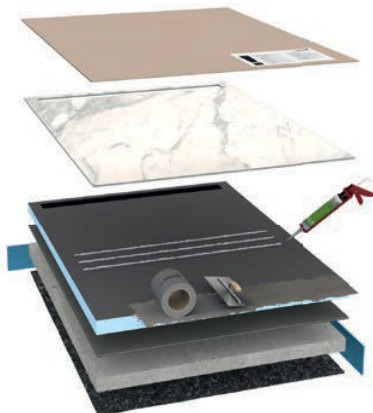

## wedi Top Line: even more freedom of design for bathrooms

The new designs are available for the design of walls and shower floors. wedi Top Walls are large format design surfaces for the cladding of walls and other vertical surfaces in the bathroom. Fundo Top surfaces on the other hand are preformed and match the slopes of corresponding floor-level shower elements made by wedi: Fundo Primo, Fundo Ligno Plus and Fundo Riolito Neo. Seamless wedi Top design surfaces combined with matching wedi Fundo shower elements form a perfectly coordinated and technically sophisticated system.

Like all wedi Top Line products, the new design surfaces in marble look are also fast and easy to process and fit perfectly into the wedi system.
