

wedi design surfaces now also in a stunning marble look

Emsdetten, 09 January 2024. Timeless elegance and sustainability: the bathroom and wet room specialist wedi launched brand new colour options for its seamless Top Line. Ready-to-install wedi Top design surfaces are now also available in a modern marble look. Thanks to the beautiful marble pattern, they create an elegant atmosphere in the bathroom. What's more, they are fitted in no time: these large-format surfaces can be installed in just a few simple steps. What's more, they also comply with sustainable building due to their natural material composition.

There are 4 new finishes available for designing personal wellness oases. "marble white", "marble grey-beige", "marble grey-brown" and "marble black". Another advantage of the new design surfaces is their low weight and thickness of only 4 mm – a clear advantage over large-format tiles.

Marble look is available for the Top Wall and the Fundo Top

The new designs are available for main parts of the Top Line, says Vera Ulich, product manager at wedi: "For the Top Wall, our seamless cladding for walls and other vertical surfaces, and for the Fundo Top, a seamless shower floor surface matched to our flush-to-floor Fundo Primo, Fundo Ligno Plus and Fundo Riolito Neo shower elements." Seamless design surfaces combined with matching wedi Fundo shower elements form a perfectly coordinated and technically sophisticated system.

New format with a manageable width

The height of the Top Wall in marble look is also new. "It comes with a height of 2600 mm. This format will also be available for our Flake and homogeneous Pure White surfaces in 2024," says Ulich. In addition, Top Wall in the new marble look is available in a 'handy' width of 600 mm as well as in classic widths of 900 mm and 1,200 mm.

For a visually consistent design in the shower area, Fundo Top design surfaces are also available in marble look including matching frameless drain covers.

Other benefits of design surfaces in the new marble look include:

- The 4 mm thick mineral core is coated with heavy-duty foil, and as a result, the surfaces are resistant to water, UV and chemicals.
- They are non-slip and seamless.
- Thanks to the antibacterial surface they are also easy to maintain.

Installation is quick and easy

Like all wedi Top Line products, the new design surfaces in marble look are also quick and easy to process. The system approach and sophisticated technology make the installation especially straightforward.

- The surfaces are glued to respective wedi system components using wedi 610 adhesive and sealant. There is no need for laborious drilling and screwing.
- The frameless drain covers included with Fundo Top surfaces in a marble look can be used directly with the Fundo shower elements.
- substrate such as wedi building board, tiles, plaster or plasterboard.
- If the design surface is too large, it can be easily cut on site with a simple hand-held circular saw.

About wedi

The wedi Group is a leading manufacturer of innovative system solutions for bathrooms and wet rooms. The company, founded in 1983 in Emsdetten, Westphalia, is known for its building boards with blue XPS core developed by the company founder Helmut Wedi. Today, the system provider employs more than 500 people and is active in over 50 countries. At its two manufacturing plants in Germany and the USA, wedi produces complete building systems and design-oriented components for durable and aesthetic bathrooms. The strategic focus is on a high degree of prefabrication and integrated technology to enable safe and easy installation. wedi is certified according to the environmental protection standard ISO 14001 and pursues a comprehensive sustainability strategy.
